

VASU BHARGAV

Aspiring Web Developer | Meerut, Uttar Pradesh, India
demo.email@example.com | +91 XXXXX XXXXX | GitHub | LinkedIn

PROFILE

Motivated aspiring web developer with a strong interest in building clean, useful, and user-focused web applications. Currently learning Python and Django while developing practical projects and improving skills in frontend design, backend development, and databases.

SKILLS

Languages & Web: Python, HTML, CSS, Basic JavaScript

Frameworks & Tools: Django, Git, GitHub, VS Code

Database & Backend: PostgreSQL, Supabase, Django ORM

Other: UI/UX Design, Responsive Web Design, Problem Solving

PROJECTS

LabourPlace — Worker & Service Platform

Developing a platform concept designed to connect workers and users with relevant services and opportunities. Working with Django concepts, backend architecture, databases, templates, and responsive user interfaces.

Personal Portfolio Website

Designed and developed a three-page portfolio website with Home, About, and Contact pages using Django templates, HTML, and CSS. Focused on clean layout, reusable template structure, and responsive design.

Music Website UI

Created a modern web interface concept for a music-focused website, emphasizing visual hierarchy, clean cards, and an engaging user experience.

EDUCATION

Bachelor of Technology (B.Tech) — Ongoing

Focused on developing technical knowledge and practical software development skills.

LEARNING JOURNEY

2025–Present: Learning web development, Python, Django, databases, and backend development while building practical projects.

Current Focus: Django development, template inheritance, static files, CSS layouts, backend fundamentals, and real-world project building.

INTERESTS
